

Your expert practice partner for servicing and repairs

Why choose DD?

Our Team

With over 60 highly trained engineers, regional workshops and cutting-edge fleet management – our team delivers multi-skilled service in lightning-fast time right across the UK.

Our Service

From dedicated engineering helpdesks and flexible service plans to fully equipped vans and complete asset management – DD set the gold standard for customer service. So when your practice needs us, we'll be there.

Our ONE Guarantee

The best practices need an expert supply partner, and we're here to deliver with our ONE guarantee. One point of contact, one lead engineer, one payment method and one telephone number – all under one roof. It's the DD way.

Dental

Want to save your practice time and money? Make multiple call-outs a thing of the past thanks to our highly trained engineers. Experts across all disciplines, we can fix your dental chair, service your autoclave and even test your X-ray equipment, all in one trip.

Decontamination

From washer disinfectors to ultrasonic and handpiece cleaners, DD have set the standard in decontamination service for over 20 years. So, it's no surprise that practices UK-wide trust our expertise to help them comply with regulations and best practice.

Digital

With dental technology evolving by the minute, it's crucial to be on the cutting edge. That's why DD work with leading manufacturers to stay one step ahead, passing this knowledge onto you, all while training and developing our engineers.

Compliance

Confused by compliance? Keeping to the letter of the law is a complicated process, with requirements shifting from region to region. DD's support team are on hand to make sure you never fall foul of regulations, no matter where you are.

Testing

Equipment breakdown can mean sky-rocketing repair costs, so why run the risk? DD's expert engineers can test, maintain and service your equipment quickly and easily, meaning it lasts longer and minimises practice disruption.

Pricing

When it comes to pricing, we have three key principles: simple, fair and easy. Our highly trained engineers mean we can tackle almost any job, so take your pick from our fixed price plans or tailor the level of service to suit your practice.
